

NP-F970 Power Kit User Manual

Overview

The ZILR NP Power Kit includes everything you need to power your camera or external devices. Never miss a shot again due to low capacity batteries or waiting around for your next charge.

What's in the box

NP-F970 USB-C PD Battery

USB-C PD Wall Charger

USB-C Cable

USB-C Lightning Cable

AC International Plugs

Pouch

Product Code

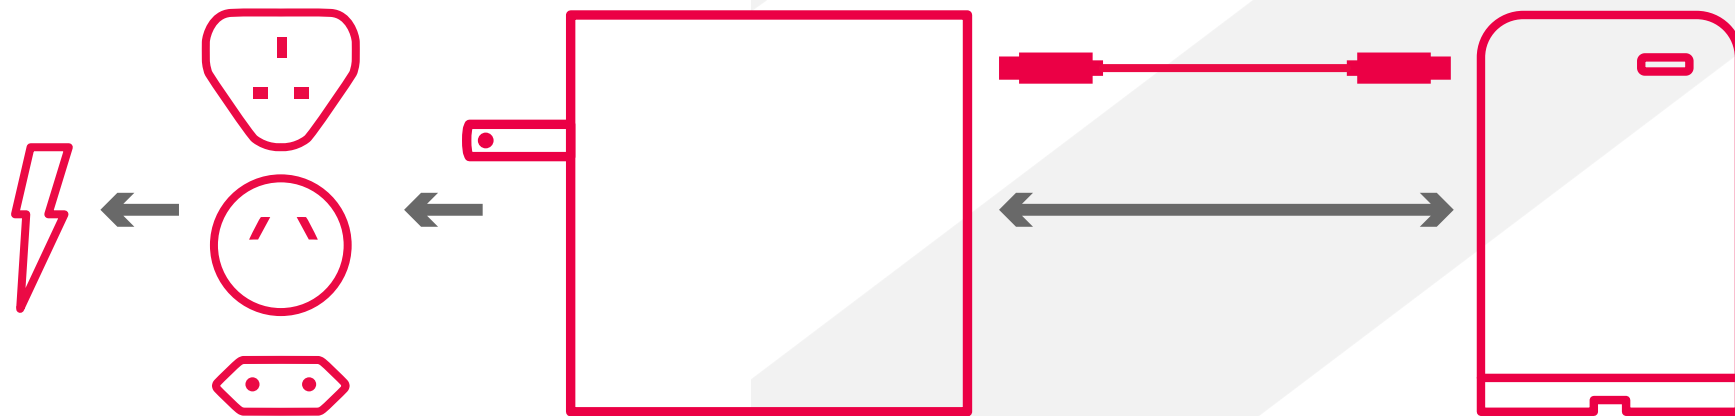

ZRNPPK01

Getting Started

Charging the NP-F970 Battery

The NP-F970 battery should be charged using the included USB-C PD Wall Charger and USB-C cable. This will ensure that the battery is charged correctly and supports fast charging via this method.

Use the AC international adaptor plug for wall charger that matches your region.

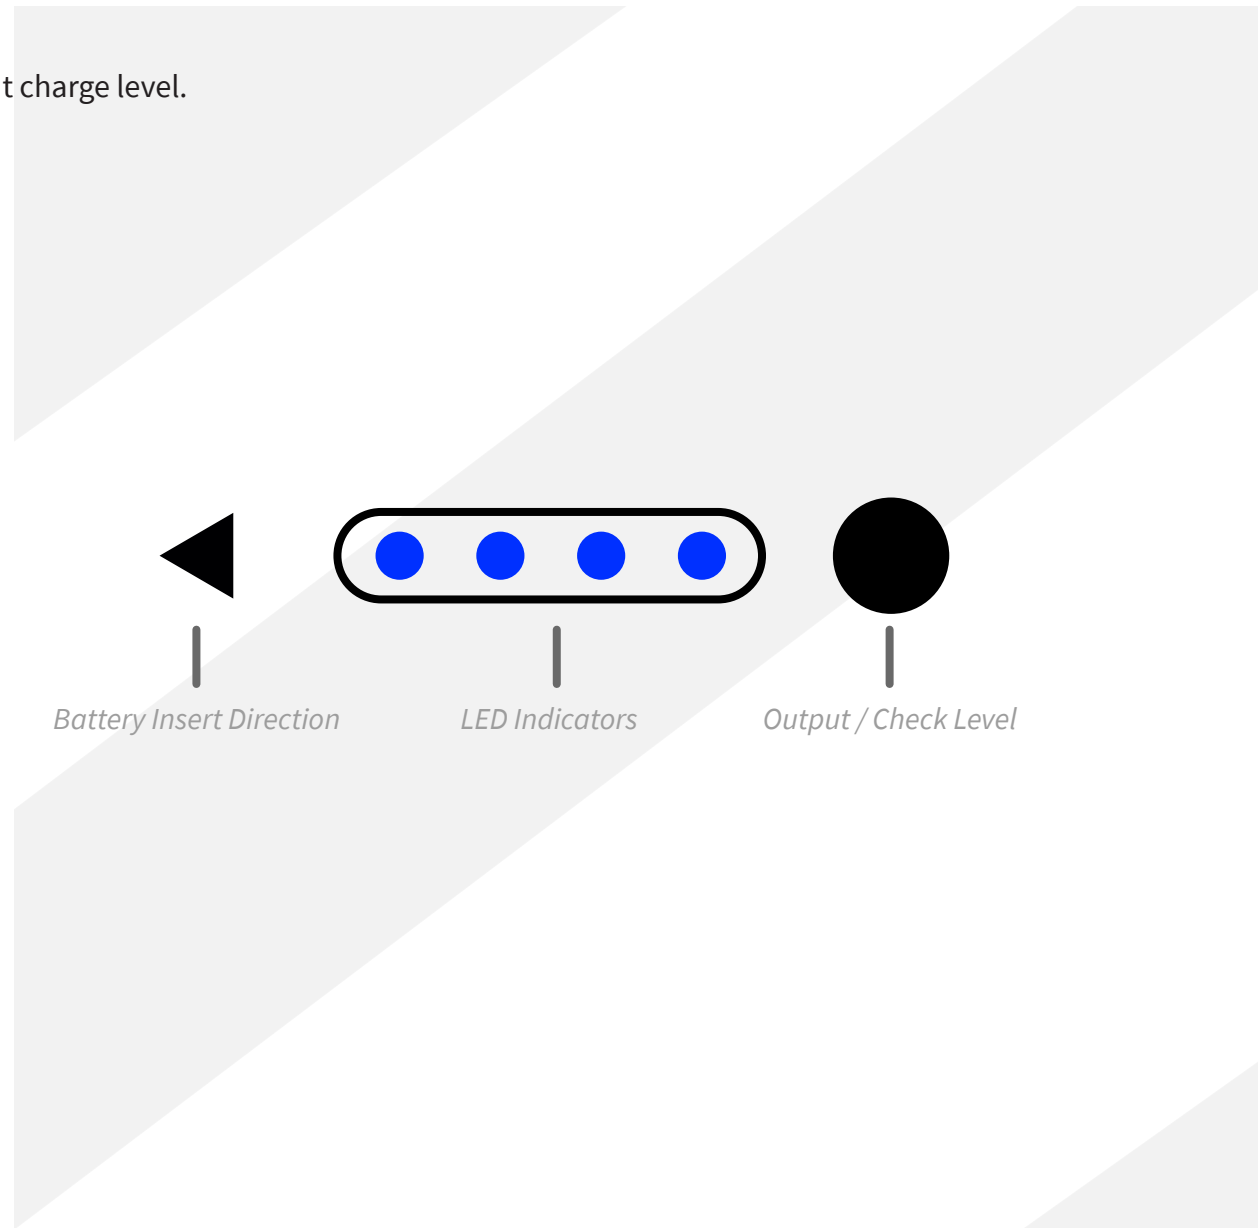

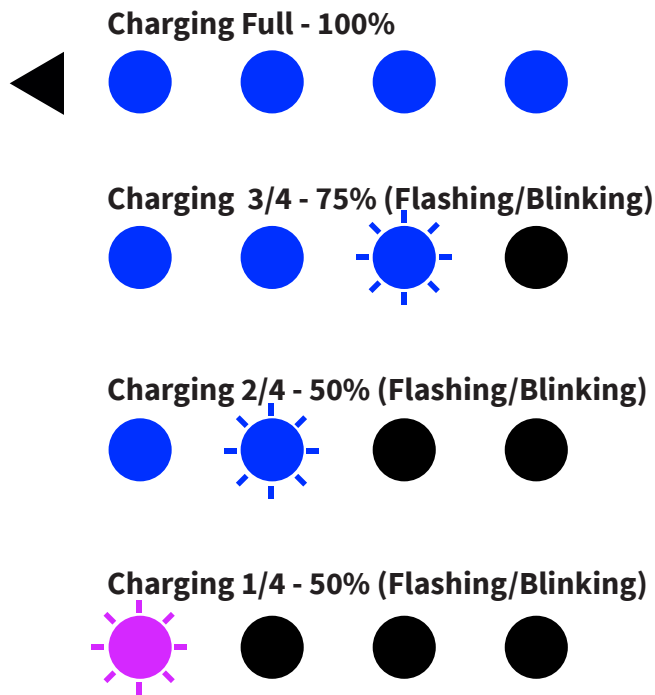

Recommended charging setup

 Do not overcharge. Do not expose the batteries and charger to fire or liquids.

LED Charging Indicators

NP-F970 Battery LED Charging Functions

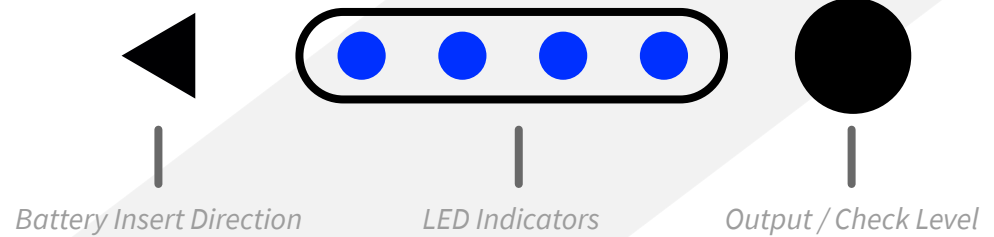

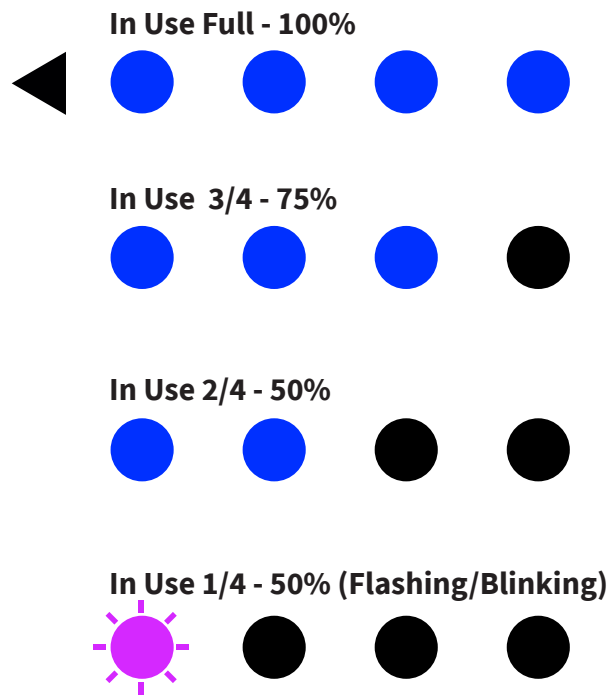

The NP-F970 battery features LEDs to indicate the current charge level.

LED Power Indicators

NP-F970 Battery LED Power Usage Functions

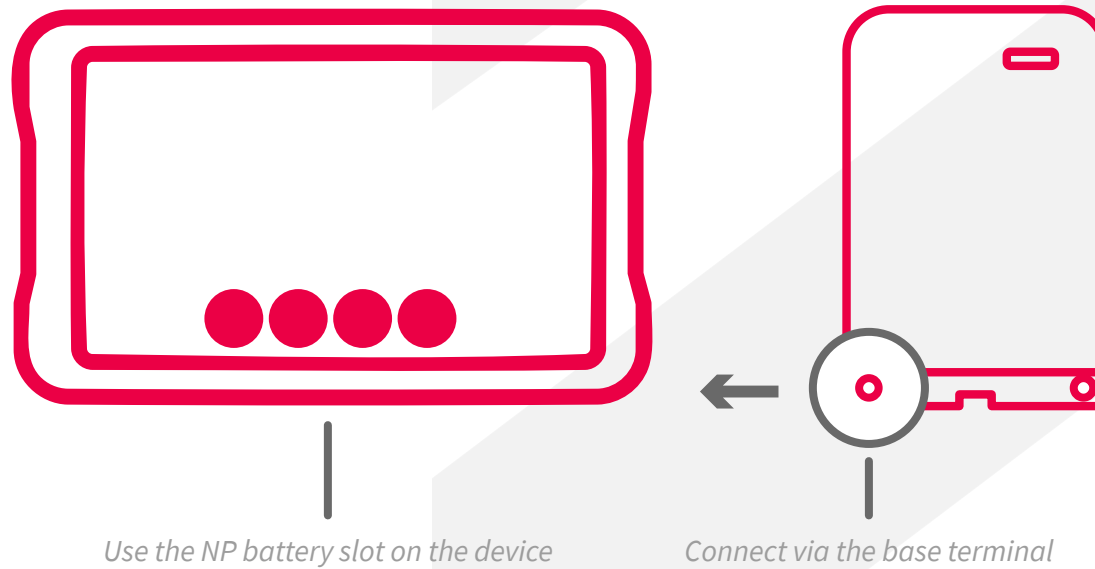

The NP-F970 battery features LEDs to indicate the current power level while in use. Press the Output / Check Level button to view the current level.

Using the NP-F970 on devices

NP-F970 Battery on L-Series Devices

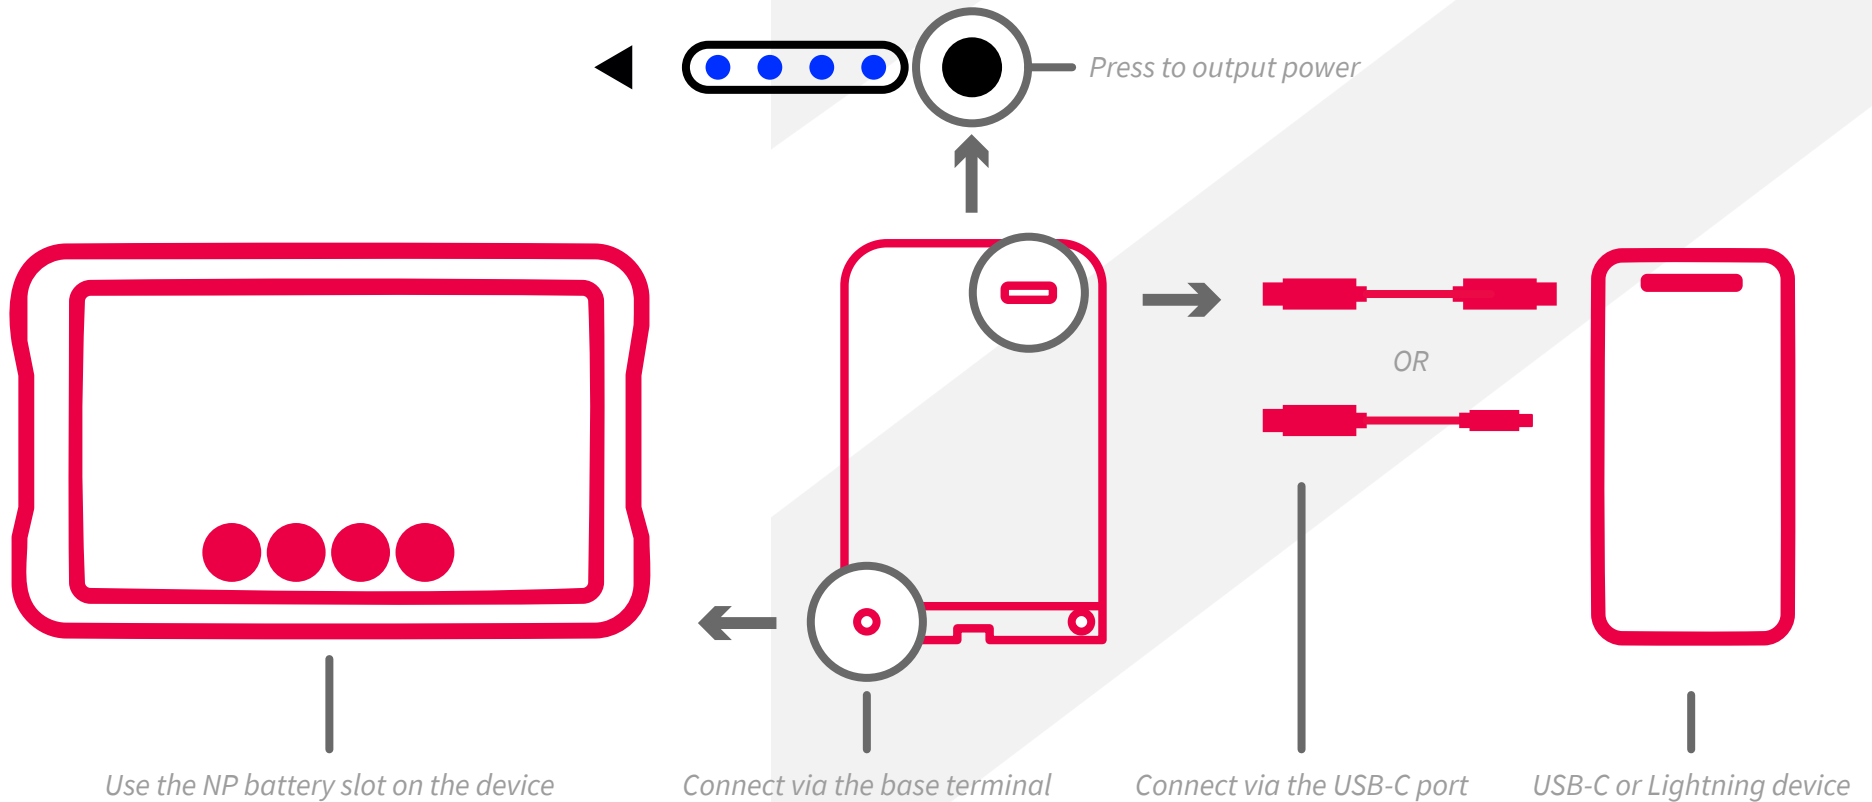

The NP-F970 battery can be used on L-Series devices using the standard 7.4V base terminal.

Using the NP-F970 with two devices

NP-F970 Battery USB-C Output

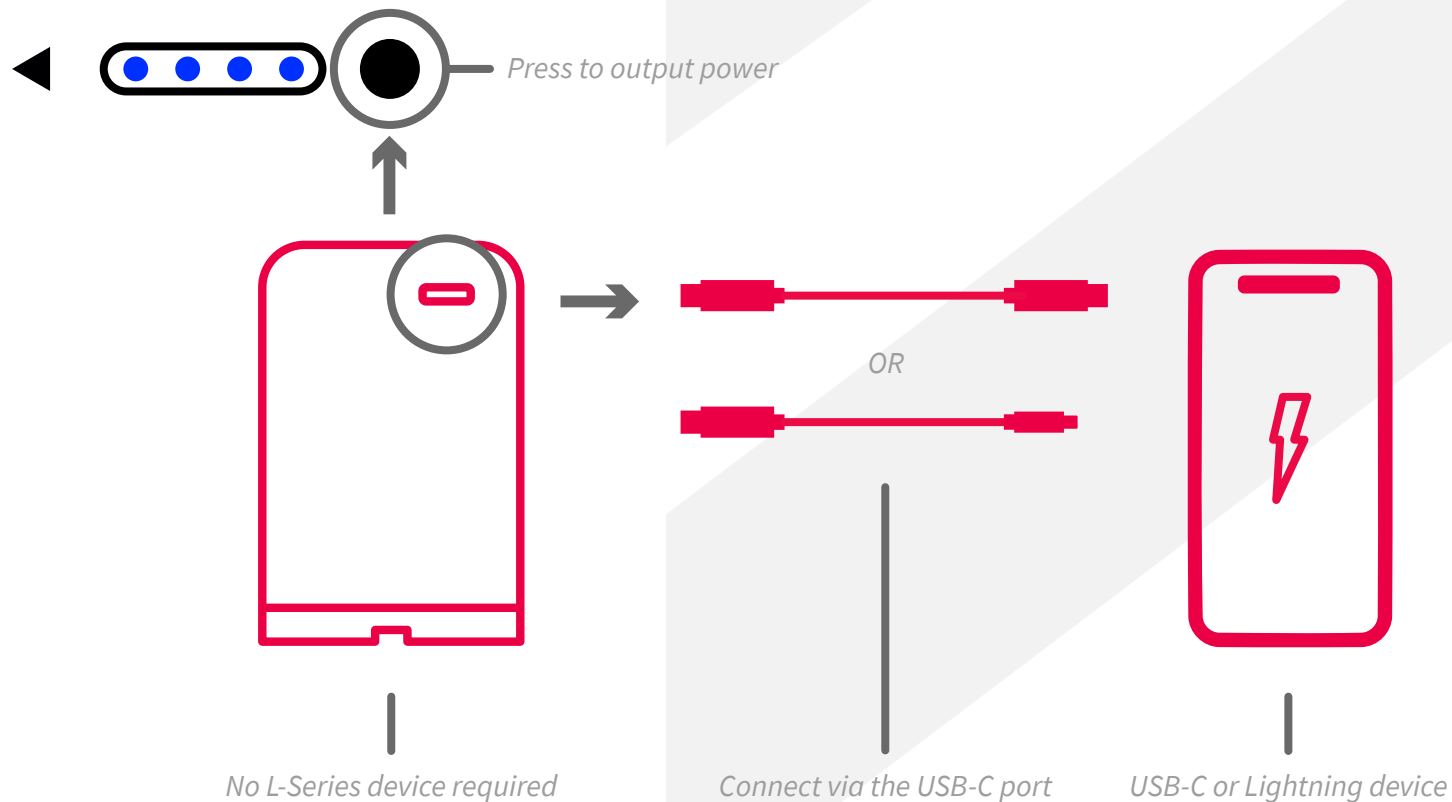

The USB-C output on the NP-F970 battery can be used to power another device while in use. First connect the battery to the compatible NP battery/L-Series device via the device's slot. Next plug in the USB-C to USB-C cable or the USB-C to Lightning cable to a USB-C or Lightning port on the second device. Press the Output Power button on the top of the NP-F970 battery. The second device will then be powered from the battery.

Using the NP-F970 as a power bank

NP-F970 Battery power bank mode

The NP-F970 also doubles as a power bank, enabling charging of mobiles and tablets. The battery does not require to be connected to a L-Series device for this to work. Simply plug in the USB-C to USB-C cable or the USB-C to Lightning cable to a USB-C or Lightning port on the mobile or tablet. Press the Output Power button on the top of the NP-F970 battery. The device will then be powered from the battery. The device will then charge. It also supports fast charging on devices that support this feature.
